

The background of the entire advertisement is a large, high-quality photograph of a construction site at sunset. The sky is filled with orange and yellow clouds, and the sun is low on the horizon, creating a warm glow. In the foreground, two construction workers wearing hard hats and high-visibility vests are standing on a pile of dirt, looking towards the site. In the middle ground, there are several large yellow cranes and a white dump truck. In the background, the skeletal structure of a multi-story building is visible, with workers on different levels. The overall scene conveys a sense of active construction and progress.

BUILT FOR THE WORK THAT MOVES PROJECTS FORWARD

ABREEZ General Contracting Company

Contracting. Equipment. Site Support
One partner. Multiple capabilities. Practical execution

Civil Works | Mechanical Works | Electrical Works
Equipment Rentals | Earth Moving | Heavy Lifting

ABREEZ / AGCC

WHO WE ARE

FROM SITE REQUIREMENTS TO SITE RESULTS

Construction projects rarely depend on one discipline alone. They require the right people, equipment, sequence and coordination to come together at the right time

That is where ABREEZ comes in

ABREEZ General Contracting Company (AGCC) provides **civil, mechanical and electrical works**, supported by equipment rentals, earth moving and heavy lifting

Our approach is practical: understand the requirement, plan the work, coordinate the moving parts and deliver against the agreed scope

Whether you need a defined work package or additional support within a wider project, we build our approach around the site conditions, schedule, scope and expected deliverables

OUR ROLE IS SIMPLE:

Understand the work. Plan it properly. Execute it responsibly

OUR VISION

To become a preferred contracting partner for clients who value **dependable execution, clear communication and responsible working practices**

OUR MISSION

To deliver contracting and equipment support aligned with each project's requirements through **careful planning, practical coordination and attention to workmanship**

OUR DIFFERENCE

THE WORK IS COMPLEX THE WAY WE WORK SHOULDN'T BE

ABREEZ brings complementary construction and site-support capabilities together, helping clients coordinate requirements through a practical and structured approach

01 — UNDERSTAND

We begin with the actual requirement scope, drawings, quantities, site conditions, access and target dates

02 — PLAN

We establish the work sequence, resources, equipment requirements, responsibilities and key inspection points.

03 — COORDINATE

We maintain communication across the client, site teams and related trades as work progresses

04 — DELIVER

We work toward the agreed deliverables, address outstanding items and support the required handover

WHAT GUIDES EVERY ASSIGNMENT

QUALITY

Workmanship aligned with approved drawings, specifications and acceptance requirements

ACCOUNTABILITY

Clear responsibilities and open communication on progress and changes

SAFETY

Safe planning and responsible site conduct throughout the work

EFFICIENCY

Practical sequencing and resource planning to reduce avoidable delays and rework

OUR SERVICES

ONE PROJECT. MULTIPLE REQUIREMENTS

ONE COORDINATED APPROACH

From ground preparation to installation, from electrical support to heavy lifting, ABREEZ provides services around the practical requirements of construction and site operations

01 CIVIL WORKS

Building the foundation
for what comes next

ABREEZ supports civil construction activities from initial site preparation through structural and external works, based on approved project requirements.

- Site preparation and enabling works
- Foundations, concrete and structural works
- Masonry, blockwork and general finishing
- Roads, paving, drainage and external works

PLANNING FOCUS:

Drawings • Site access • Work sequence • Trade coordination

02 MECHANICAL WORKS

Installation and support
where systems meet the site

Mechanical works are coordinated with civil and electrical requirements to maintain a practical installation sequence

- Mechanical equipment installation
- Piping installation and associated supports
- Fabrication and assembly works
- Maintenance, repair and replacement works

PLANNING FOCUS:

System requirements • Access • Interfaces • Inspection

OUR SERVICES CONTINUED

03 ELECTRICAL WORKS

Power, lighting and site electrical support

ABREEZ provides electrical installation and maintenance support based on project requirements and approved layouts

- Cable laying, routing and containment
- Power distribution and panel installation
- Internal, external and site lighting
- Electrical maintenance and testing support

PLANNING FOCUS:

Power requirements • Approved layouts • Site conditions • Coordination

04 EQUIPMENT RENTALS

The right equipment for the task at hand

ABREEZ supports construction and site operations through equipment rental requirements, with selection based on the intended task, site conditions and working period

- Construction and site-support equipment
- Material handling and lifting equipment
- Earth-moving equipment requirements
- Hire arrangements aligned with project duration

EQUIPMENT TYPE:

Capacity • Availability • Operator provision • Mobilisation terms

05 EARTH MOVING

Prepare the ground.
Prepare the project

Earth moving supports the work that follows from clearing and excavation to grading, backfilling and material movement

- Site clearance and ground preparation
- Excavation and trenching
- Backfilling, grading and levelling
- Loading and movement of excavated material

PLANNING FOCUS:

Site levels • Ground conditions • Access • Material quantities

06 HEAVY LIFTING

Move heavy. Position precisely.
Coordinate safely

ABREEZ supports the lifting and positioning of heavy materials, equipment and construction components around the specific requirements of each assignment

- Cranage and lifting support
- Loading and unloading of heavy items
- Positioning of equipment and components
- Lifting coordination within site operations

PLANNING FOCUS:

Load requirements • Access • Equipment availability • Responsibilities

WHY ABREEZ / PROJECT ENGAGEMENT

YOUR SCOPE. OUR PLAN. LET'S GET TO WORK

- ✓ A drawing
- ✓ A site
- ✓ A quantity
- ✓ A deadline
- ✓ A lifting requirement.
- ✓ An equipment requirement

Bring us the requirement. We'll work with you to define the way forward

HOW WE START

01

SHARE THE REQUIREMENT

Provide the scope, location, drawings, quantities, target dates and relevant site information

02

DEFINE THE WORK

We review the requirement, identify the necessary resources and establish the expected scope

03

PLAN & COORDINATE

Work sequence, access, resources, equipment, responsibilities and inspection requirements are aligned

04

EXECUTE & HAND OVER

The agreed work is carried out, outstanding items are addressed and handover requirements are completed

LET'S TALK ABOUT YOUR NEXT REQUIREMENT
